ABOUT ME

As a dedicated learner and aspiring MERN Stack Developer Intern, I am deeply committed to crafting innovative web solutions. I am a self-motivated individual with a strong passion for web development. My skillset includes proficiency in HTML, CSS, React, Bootstrap, JavaScript, and Git. I am eager to apply these skills to create impactful and dynamic web applications.

PROFESSIONAL EXPERIENCE

MERN STACK DEVELOPMENT INTERN at Luminar Technolab

SEPT 2023 / PRESENT

As a MERN Stack Development Intern at Luminar Technolab, I am currently undergoing structured learning with the support of a tutor. This internship has helped me gain practical skills in MongoDB, Express.js, React.js, and Node.js, focusing on both front-end and back-end development as well as database management. It has been a valuable opportunity that provided me with good experience.

PROJECT

0.1 Netflix-clone

- Created a Netflix clone website using HTML, CSS, and React.
- Designed the website to be responsive, ensuring it looks good on various devices.
- Incorporated API functionality for agile content display.

0.2 Restaurant Website

- Developed a user-friendly Restaurant website using HTML, CSS, and React, Redux
- Designed and implemented an intuitive UI displaying reviews, operational hours, and key restaurant details.
- Employed Redux for efficient state management, ensuring seamless navigation and improved performance

0.3 E Kart Website

- Established an easy-to-use e-Kart website with HTML, CSS, and React, Redux
- Implemented robust features for product viewing, wishlist management, and cart functionality.
- Utilized Redux for centralized data management, enabling scalability and future enhancements
